

Table of Contents

Section I - INTRODUCTION TO GENERAL PHARMACOLOGY

Chapter 01: General Principles of Pharmacology

Chapter 02: Drug and their Administration

Chapter 03: Patient Educations

Section II - NEUROLOGICAL SYSTEM DRUGS

Chapter 04: Adrenergic and Cholinergic Drugs

Chapter 05: Psychiatric Drugs

Chapter 06: Anticonvulsant and Antiparkinsonism Drugs

Chapter 07: Cholinesterase Inhibitors

Chapter 08: Antiemetic and Antivertigo Drugs

Chapter 09: Anesthetic Drugs

Chapter 10: Analgesics and Antagonists

Section III - RESPIRATORY SYSTEM DRUGS

Chapter 11: Antihistamines and Decongestants

Chapter 12: Bronchodilators and Antiasthma Drugs

Chapter 13: Antitussives, Mucolytics, Expectorants

Section IV - CARDIOVASCULAR SYSTEM DRUGS

Chapter 14: Heart Conditions Drugs

Chapter 15: Antianginal and Peripheral Dilating Drugs

Chapter 16: Antihypertensives

Chapter 17: Antihyperlipidemic Drugs

Chapter 18: Anticoagulant, Thrombolytic, and Anti-Anemia Drugs

Section V- GASTROINTESTINAL AND URINARY SYSTEM DRUGS

Chapter 19: Diuretics and Antidiuretics

Chapter 20: Urinary Anti-Infectives and other Urinary Drugs

Chapter 21: Gastrointestinal System Drugs

Section VI - ENDOCRINE AND REPRODUCTIVE SYSTEMS DRUGS

Chapter 22: Insulin and other Antidiabetics

Chapter 23: Hormones as potential drugs

Chapter 24: Ecobolics and other drugs acting on the Uterus

Section VII - IMMUNE SYSTEM DRUGS

Chapter 25: Antibiotics

Chapter 26: Other Drugs Against Infectious Disease

Chapter 27: Immunologic Agents

Chapter 28: Antitumors and Chemotherapy

Section VIII - OTHER BODY SYSTEMS DRUGS

Chapter 29: Musculoskeletal System Drugs

Chapter 30: Topical Drugs

Chapter 31: Ear and Eye Products

Chapter 32: Water, Acid-Bases and Electrolytes
